CASH

THE ORIGINAL PEER-TO-PEER NETWORK

No app. No account. No permission. No off switch.

WHY I PAY IN CASH

PRIVATE. No database records what you bought. A cash payment is nobody's data.

PERMISSIONLESS. No account to open, no balance to freeze, nobody who can say no.

OFFLINE. It settles in a blackout, a dead zone, a disaster — when cards can't.

FINAL. No 3% card fee skimmed off the seller. No chargebacks. No middleman.

USE IT OR LOSE IT.

Pay cash once this week — then hand this card to someone else.

Cash survives only while people use it. Every cash payment keeps the option alive — for everyone.
